What Makes Us Different

Our Academy is dedicated to small class sizes and personalized educational experiences using modern teaching tools. The school is Wi-Fi enabled, allowing students to participate in contemporary online learning programmes. We are developing a fully interactive environment where technology will link teacher, student and parent.

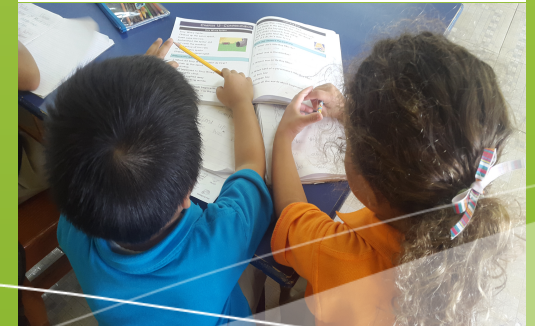

Supporting our goal to cultivate positive global citizens, Tobago International Academy launched the Breaking Barriers integration initiative with School for Deaf, Language and Hearing Impaired and the Tobago YMCA.

About Tobago International Academy

Tobago International Academy is a private school offering a caring, happy and secure learning environment where students thrive and grow intellectually, physically, and morally. We are committed to small teacher-to-student ratios to promote personalized educational development for students in Infant 1 through Standard 5. The academia follows the established Ministry of Education primary school curriculum, with additional focus on experiential learning.

Our students enjoy at least one field trip per term to enhance the curriculum. Tobago International Academy emphasizes that school should be enjoyable and that learning happens outside of the classroom as well as inside

Tobago International Academy enjoys a strong partnership with staff and students' parents, based upon mutual honesty and respect, to promote the greater good of the whole school community. We collaborate with parents to develop programmes that cultivate the students into well-rounded individuals.
